

Essential Oils Market Report for Summer 2024

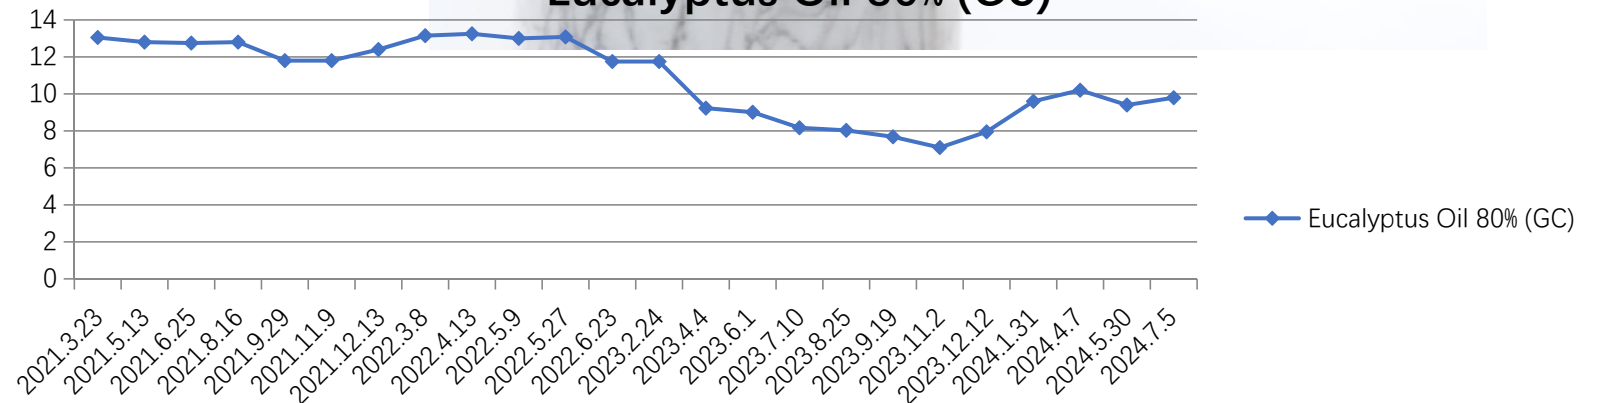

YUNNAN LORRAINE AROMATIC PRODUCTS CO., LTD

Eucalyptus oil / Eucalyptol

Many farmers now lack the enthusiasm to process Eucalyptus oil, which will affect the decrease in the output. Farmers have inventory and are unwilling to sell at low prices. At present, although Eucalyptus oil is available in the market, the transaction rate is low due to price factors.

Eucalyptus Oil 80% (GC)

Botanical Name:
Eucalyptus Globulus, Labill.
Cas No. 8000-48-4
FEMA 2466

Crop Season: January February March April May June July August September October November December

Geranium oil

Now during the fruit harvest season, farmers are busy selling other products. As the planting area decreases, the output of Geranium also decreases. The weekly trading volume of Geranium oil in the market is very small, but farmers have stocks in their hands and can supply the market, it is only a matter of price.

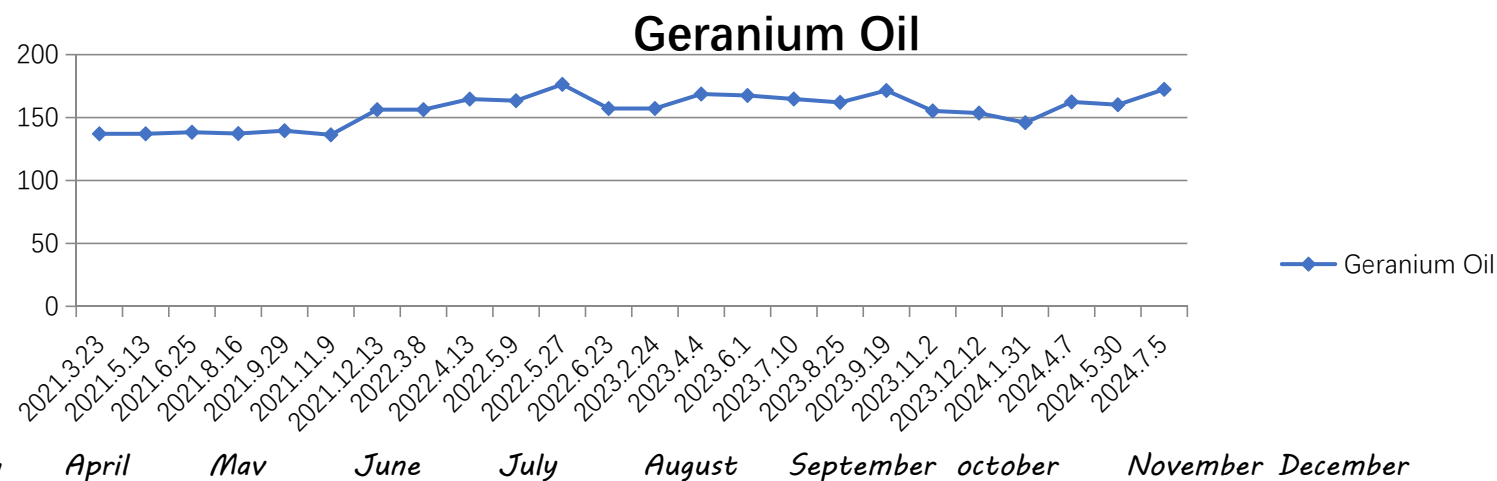

Botanical Name

Pelargonium graveolens LHerit

Cas No.8000-46-2

FEMA : 2508

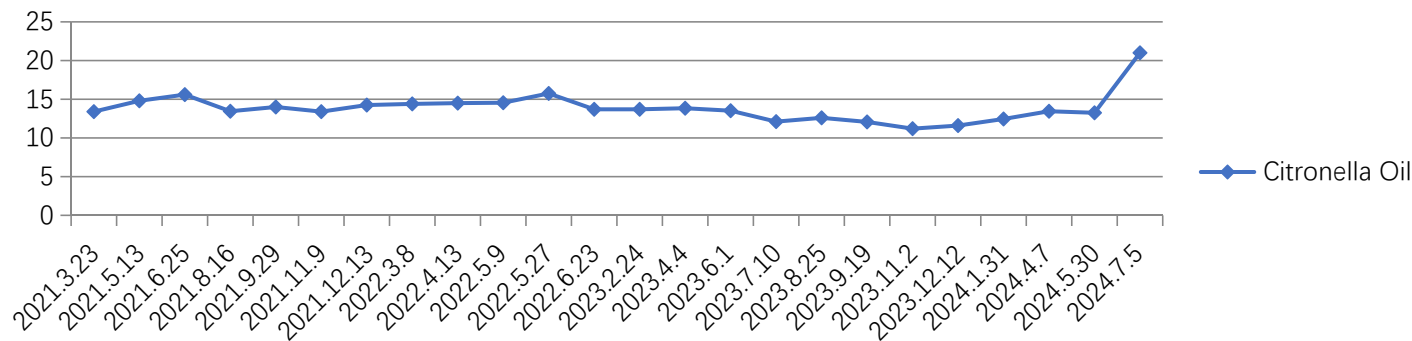

Citronella oil

The reduction in the planting area of Citronella has led to a relative decrease in the output, and now prices fluctuate greatly, making collectors hesitant to stock up. Some farmers may consider selling Citronella oil based on the current market situation. Recently, the purchase price has increased, and farmers will come up with some goods to sell.

Botanical Name:
Cymbopogon Winterianus Jowitt Cas
No .8000-29-1
FEMA : 2308

Citronella Oil

Crop Season: January February March April May June July August September October November December
